REMEMBER

On all wire, the last measurement goes around the roll. ½" x 1" mesh has a wire pattern that will produce 1" of waste per cut. A 1" x ½" pattern will produce ½" of waste per cut that must be trimmed to eliminate sharp ends. And in 1" x 2" mesh you lose 2" per cut!

Freight Discounts

Our volume allows us to have contracted discounts with freight companies. We pass those savings to our customers!
