REMEMBER

On all wire, the last measurement goes around the roll. 1/2" x 1" mesh has a wire pattern that will produce 1" of waste per cut. A 1" x 1/2" pattern will produce 1/2" of waste per cut that must be trimmed to eliminate sharp ends. And in 1" x 2" mesh you lose 2" per cut!

ALL WIRE FOR UPS SHIPMENTS!

If a roll goes over 150 lbs. and must be cut, there will be a charge of \$9.00 for each cut.
