

WELDED WIRE

Thank You for your interest in our products and for giving us an opportunity to be your wire supplier! **Klubertanz Equipment** is a nationwide distributor for Riverdale Mills wire manufacturer, stocking over 2,500 rolls of welded wire. We carry only brands that are cage-quality material. The quality of these brands and the accuracy of the dimensions are higher than many of the brands that you may find locally. **Any Questions?** Please feel free to call us on our toll-free line; we will be glad to help you.

TYPES OF WIRE MESH AND FINISH

GALVANIZED BEFORE welding is an economical mesh. The galvanizing is damaged at the joints during the welding process. Thus, the material rusts more quickly, which decreases the life of the product when compared to the Galvanized After wire.

GALVANIZED AFTER welded wire is dipped after it is welded, providing a seal of zinc and galvanizing over the joints. This makes the mesh somewhat harder to cut & straighten, but at the same time, it is more supportive & stiffer. The wire used in our Galvanized After welded brands typically is made from a stiffer and stronger steel.

RIVERDALE® GALVANIZED AFTER WELDED

Freight Discounts

We can offer freight savings of up to 85% from list, depending on your location. Call for details.

REMEMBER

On all wire, the last measurement goes around the roll. 1/2" x 1" mesh has a wire pattern that will produce 1 inch of waste per cut. A 1" x 1/2" pattern will produce 1/2" of waste per cut that must be trimmed to eliminate sharp ends. And in 1" x 2" mesh you lose 2" per cut!

\$1,000.00 - \$2,000.00	5%
\$2,000.00 & Over	7%

W660 (2" X 1" X 24")

REMEMBER

On all wire, the last measurement goes around the roll. 1/2" x 1" mesh has a wire pattern that will produce 1 inch of waste per cut. A 1" x 1/2" pattern will produce 1/2" of waste per cut that must be trimmed to eliminate sharp ends. And in 1" x 2" mesh you lose 2" per cut!

Baby-Saver and KitGard Wire

has a smaller mesh along the bottom 4" of the roll. For example, W670 has 1/2" x 1" mesh on the bottom and 2" x 1" mesh over the rest.
