- ## INSTRUCTIONS
- Determine the **zone** for the **shipping address** from the table in the inside of the back cover.
 - Estimate the **weight** of your package(s). Remember that your estimations are just that, as packing material, grouping, and weight/size limitations may affect the number and weight of packages.
 - We strongly recommend that all mail orders are phoned in first. We easily can accurately estimate the shipping, and then tell you the dollar amount necessary for your payment.
 - We will do our best to pack your order in the **safest** and most **cost-effective** way.
 - For packages over 70 lbs, contact us for costs.
 - For shipments over 130 lbs, contact us for costs.
 - Pay attention to any of the **additional fees and charges** assessed by UPS listed at the bottom of this page.
 - Shipping charges are subject to change, due to possible changing UPS regulations, costs, and/or fuel surcharge fluctuations.

UPS Ground Service Additional Charges

- A \$1.15 fee per package will apply for every \$100 in content value, beginning at \$100 of value.
- For UPS an additional handling charge of \$23.10 per package will apply to packages that require special handling over 60" long.
- Rolls of wire will be subject to a \$3.50 boxing charge per package (Note: commercial truck shipments by semis are not subject to this charge.)
- A package with 2 of the 3 dimensions over 30" will be subject to a \$23.10 handling charge.
- Deliveries to zip codes with a small population will be subject to a \$5.00 surcharge per package.
- A package with length plus girth being greater than 105" will be subject to a \$23.10 handling charge.

UPS Weight and Size Limits

- Any package with a weight over 50 lbs will be subject to a \$33.00 handling charge
- Maximum weight per package: 150 lbs
- Maximum size per package: 130" in length and girth combined, with a maximum length of 108" per package
- Minimum charge for a package will be the greater of either the actual weight or the "dimensional weight." Dimensional weight is calculated by width x length x height = total cubic inches. Take cubic inches and divide it by 139 to determine the dimensional weight.
- Deliveries to zip codes with a small population will be subject to a \$5.00 surcharge per package.
